Such limitations do not apply to the Government of Korea and a corporation established by a special law (e.g., Mun-hwa Broadcasting Corporation (MBC), which is established under *the Broadcasting Culture Promotion Act*).

A terrestrial broadcaster, program provider, cable system operator, or satellite broadcasting operator must include Korean content of at least the ratio publicly notified by the Korea Communications Commission, within the limit referred to in the following subparagraphs:

However, a broadcaster engaged in specialized programming pertaining to religion or education must include domestically produced movies and animations of at least the ratio publicly notified by the Korea Communications Commission, within the limit of not more than 40 percent of the yearly programming hours of movies or animations of the channel concerned.

Korea shall permit no more than 60 percent of a terrestrial broadcaster's, cable system operator's, satellite broadcasting operator's, or program provider's quarterly programming hours of foreign content per genre to be foreign content of a single country (single-country content ceiling).
